What are we doing to improve our school this year? 2019 - 2020

We are going to make sure that teaching and learning in writing is even better than it already is.
We will continue to use Talk for Writing as the tool to help us in all areas of our learning.

We want to improve everyone's learning in Mathematics. We are all going to be using Power Maths to support us.

We want to celebrate good behaviour in the school and will be looking at lots of different ways to support everyone to achieve their best and make good choices.

We want all children to love reading, we will be changing our reading areas and having special guests in to read with us.

We are going to build a new curriculum that inspires everyone to achieve and flourish.
We will deliver this throughout the year with plenty of opportunities for you to see our learning.

We want to make sure we are supporting all families and their wellbeing. We will be introducing a Family Support Officer based at school who will support all families in a variety of ways including looking at attendance.

We want to make sure that the children and parents have the chance to tell us what we are doing well and what the school can do to be better.
