

What are we doing to improve our school this year? 2022 - 2023

We want to make every opportunity a learning opportunity in the Early Years and Foundation Stage. Our curriculum will be re designed and Nursery and Reception will be working together more.

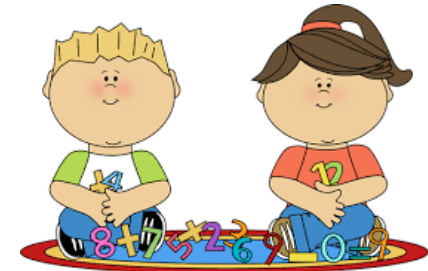

We want to improve everyone's learning in Mathematics. We are going to be developing and enriching our Maths curriculum.

We are going to make sure that teaching and learning in writing is even better than it already is.

We want to ensure that all our learners are able to access the curriculum and feel supported in their learning. We will make sure that interventions are put in place so learners are able to progress in their learning.

We are going to embed our curriculum so that all learners are inspired to achieve and flourish.

We will deliver this throughout the year with plenty of opportunities for you to see our learning.

We want to make sure we are supporting all families and their wellbeing. Our Family Support Officer based at school will support all families in a variety of ways including looking at attendance.

We want to make sure that the children and parents have the chance to tell us what we are doing well and what the school can do to be better.
